

TRANE DIAGNOSTICS MOBILE APP

CONNECTING TO THE EQUIPMENT FOR INSTALLATION AND SERVICE

The mobile device connects directly to the equipment, leveraging Bluetooth connectivity between the outdoor unit, indoor unit, and system controller.

Then, the mobile app automatically switches connection between system components as a dealer moves around the home site—always maintaining a connection with the strongest signal.

"Being able to control all pieces of equipment from outside using the app is really nice."
 - Airmax Heating & Cooling PILOT PROGRAM

TRANE DIAGNOSTICS PORTAL

A REMOTE INTERFACE TO TRANE LINK SYSTEMS FOR MONITORING

The features below are available today, but Trane Link provides enhanced data points and additional alerts— making Trane Diagnostics even more valuable! Make sure to utilize this completely free tool to help generate service leads.

- **Diagnose a problem remotely** before even sending a truck
- Remotely monitor current status and configuration of the customer's system(s)
- View **30-day runtime history** of operational data from the customer's system(s)
- Get sophisticated alerts from equipment and smart algorithms
- **Dealer Remote Configuration:** access the customer's thermostat data from a web browser to troubleshoot or configure remotely (with homeowner's permission)

Trane Link systems provide expanded data to understand and troubleshoot equipment in Trane Diagnostics:

- Compressor Speed
- Liquid Pressure and Temp
- Suction Pressure and Temp
- Subcooling
- Superheat
- Outdoor Coil Temperature
- And more!

DEALER REMOTE CONFIGURATION

A FEATURE OF TRANE DIAGNOSTICS

Dealer Remote Configuration (DRC) provides the ability to request remote access to customers' Trane smart thermostats. A homeowner can grant a dealer remote access from their smart thermostat or the Trane Home app. Once access is granted by the homeowner, the dealer will be able to view, edit, and adjust thermostat settings. Plus, they can resolve system setup and configuration issues remotely, increase customer satisfaction and reduce operating costs.
