

Next Generation Tech: Variable Speed Systems with Trane® Link

Trane Variable Speed systems have a long tradition of delivering industry-leading energy efficiency along with exceptional home comfort. With our next-generation communicating technology, known as Trane Link, you can be even more confident about a reliable installation and protection for your investment.

Here's a quick look at how Trane Link helps optimize your Variable Speed system's performance, from initial installation through years of reliable operation, and provides an even better home comfort experience.

Top 6 Reasons to Choose a Variable Speed System with Trane® Link

1 Verified Installation

One of the key advantages of a Variable Speed system with Trane Link technology is that it helps to ensure the quality of your system installation with automated verification tests. A Homeowner System Report gives you peace of mind by capturing the successful completion of automated system tests.

2 Top-of-the-Line Comfort Capabilities

A Trane Variable Speed system equipped with Trane Link enables you to experience the benefits of our most efficient air conditioning and heat pump technologies. That means better control over your home's temperature at the lowest cost per minute, with quieter operation than traditional systems.

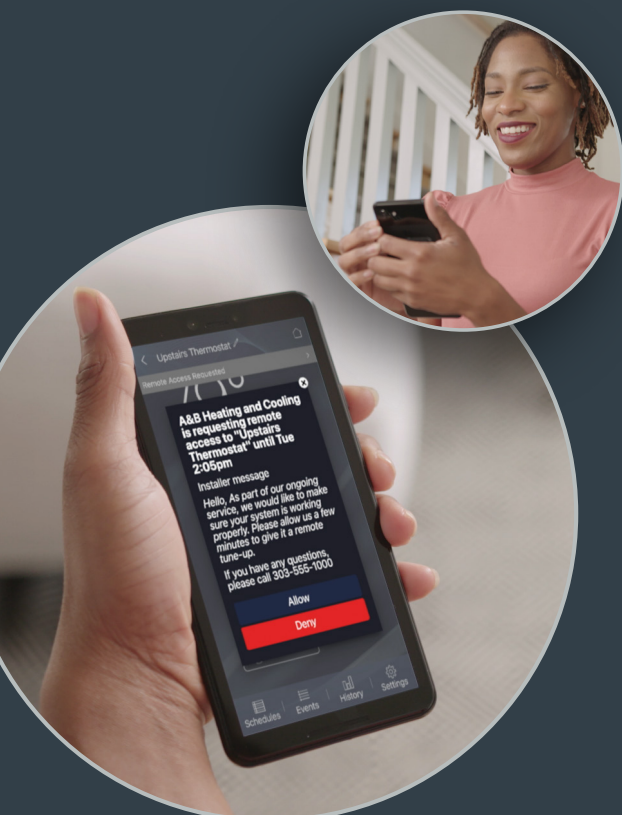

3 Precise Humidity Control

With the launch of Trane Link, Trane Variable Speed systems have been engineered with our exclusive dynamic dehumidification mode. Your system will continuously monitor and actively adjust its operation to control the temperature and humidity—the most advanced dehumidification capabilities Trane has ever offered.

Talk to your independent Trane dealer today to learn more.

4 Custom Comfort Control —Right from Your Mobile Device

A Variable Speed system with Trane Link gives you the ability to **remotely adjust temperatures, set a schedule or view your HVAC usage.** It's as simple as downloading the Trane Home mobile app and connecting to your Trane smart thermostat, recognized as a 5-star Smart Thermostat Brand in the 2021 America's Most Trusted® Study*.

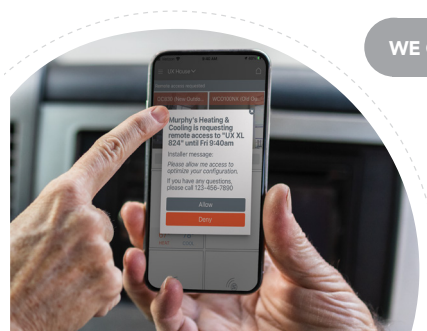

5 Automatic Notifications from Trane Diagnostics

Throughout the life of your Variable Speed system, the Trane Diagnostics platform continuously monitors the components for proper operation. With your permission, Trane Diagnostics will automatically notify your dealer if there's a potential issue—often before you even know there's something wrong.

6 Convenience from Dealer Remote Access

With your permission, Trane Dealer Remote Access gives your preferred dealer the ability to understand what could have triggered an alert with your Trane Variable Speed system before they arrive. In some cases, they can even solve the issue remotely—eliminating the need for a physical service call and providing the ultimate in personal convenience.

WE CARE ABOUT YOUR PRIVACY

You have the choice to opt-in to sharing your HVAC data with your independent Trane dealer.
