

THE ALL-TIME POPULAR

iCREATE

NEIGHBOR NETWORK PROGRAM

Neighbor Network programs are iCreate's most popular lead generation options. Select one of the turnkey templates and customize them with your company information and logo. Choose from direct mail and Facebook advertising or a combination of the two. You provide recent customers' addresses, and iCreate will schedule the advertising within a 1-5 mile radius of those homes. Prefer to target zip codes? Provide those on sign-up, and iCreate will schedule the advertising over the course of the campaign.
