

YELLOW JACKET® SERVICE TOOLS A2L COMPATIBLE

YELLOW JACKET offers a wide range of A2L Compatible HVAC Service Tools – from recovery machines, vacuum pumps, refrigerant charging scale, YJACK® series of wireless probes to a large variety of manifolds.

ASHRAE defines A2L refrigerants as a widely used class of refrigerants featuring:

- Zero ODP (zero-ozone depletion potential)
- Low flammability
- Low global warming potential (low GWP)
- Lower Toxicity

While A2L's are less flammable than Class 3 refrigerants and safe when handled properly.
